BOWDEN, ALBERTA, CAN. THURSDAY, JULY 21, 1910.

PER YEAR \$1.00

RAVEN RIPPLINGS

T Mullen was in Raven Sunday. Mr Willoughby from Caroline passed thru Raven Monday.

Miss B Troyer was the guest of Miss Bernice Berry Monday.

Cliff Burgess went to Mr Whitcomb's yesterday on business.

Mr and Mrs W O Berry made a flying trip to Innisfail last week.

Mrs Burgers spent Monday night with Mrs T Berry.

Mr Beck from Clear Water was in Raven on Sunday.

Mr and Mrs Warne were in Raven last Saturday on business.

Mr. and Mrs Frank Dolphin made a flying trip to Markerville on Monday.

Miss M Miller and a Shaw were the guest of the Dial family Sunday.

Mr R Mobbs has been staying at Mr T Berry's breaking his new team.

B Herford passed thru here on Monday with one of the prize winners from Innisfail.

Mr Muir and another young fellow passed thru here on Saturday with freight for the Stauffer Store.

OLDS NEWS

Homer Jones is at Alex on a trip this week.

W Dickson is back at his old post in the Merchants bank.

C McCutcheon and family has moved back to Olds.

J C Paul is back from the Hospital where he underwent an operation for appendicitis.

R B Campbell way at Bowden Monday.

J Duff was an over Sunday visitor at Calgary.

The Sunday school convention which has been in session at Olds for the last two days has just closed. It was a great success.

H. A. Samis was at Strome, Alta. Monday.

Mr Dodd is up from Calgary visiting the Weslors.

"The Serrys" high class comedians, musicians, vocalists, dancers vocalists and musical sketch artists will appear in McCue's hall Bowden in the laugh provoking comedy sketches entitled "Jackson's Honey-moon", "The Night Before Elections" and Breaking into "Vanderville," each one a screamer. The troop is one of the best on the road and please the audiences with their new songs, new music new dances, clever magic and quick changes. No tiresome waits. This clever company will appear in McCue's hall on Wednesday July 27th.

Enroute on train we met Wm Hiltz returning from a visit to old friends in Southern Alta. He reports a most cordial reception, a most enjoyable time and the best vacation in many years, but thru lack of rain the crops are almost a total failure, practically no rain having fallen the whole season, in very marked contrast to conditions around here. A drive of a score of miles east and west in the High River district showed large areas of crop not worth harvesting never the less he says the people are by no means dispondent, on the contrary quite cheerful optimistic and hopeful, looking for better times next year, their loyalty and faith in their winter wheat country to all appearance still unshaken. But in his opinion the mixed farming possibilities of this district of Alta are much the better and more dependable under varying conditions.

LOCAL NEWS

The editor visited busy Bowden on Wednesday.

H Cook of Innisfail called on P McDermott Wednesday.

Editor Schooley was up from Crossfield on Monday.

Sam Welch's smiling face was seen in town on Monday.

Miss Wilson of Red Lodge is visiting at the home of the Rev Chalmers this week.

Mr and Mrs Dan Hall were visitors at Mr and Mrs Woodalls west of Bowden last week.

Mrs Williams and Miss Williams of Olds visited at the home of Mr and Mrs C H Leich Thursday.

F C Brightman of Mt House was a pleasant caller Monday. He reports the crops looking tip top out along the river.

Carlton, the magician, gave a very pleasing show last evening in McCue's Opera House to a well filled house. He is a wonder.

H E Shenfield was a business caller at Stettler Thursday returning Monday. He says that our crops are far ahead of any thing in that district.

The crops in the Olds, Bowden, and Innisfail districts at the present time are looking fine, but we do not feel like crowing over our more unfortunate brothers in the east and south district.

T H Lee of Red Lodge was a pleasant caller this week. At our request he has written out his experiences for one day during his batching stunt. It will appear next week. Mrs Lee is visiting relatives at Wilsons Creek Wash.

C W Chamberlin was up from Maple Creek the past week looking after his section of winter wheat. He says the crop is far ahead of last year. While here he let the contract for a ten thousand bushel granary to be erected on his place.

An exciting race was pulled off at the race track on Tuesday night between Bob Teeling's pony and J Prouse's pony now owned by J Hayward. A side bet was put up and the Teeling pony took the money. It is estimated that there were five out to see the race where there would be one to church.

A special train will pass thru Bowden on a trip the Experimental Farm, Lacombe on Friday, July 26th leaving Bowden at 9.21, fare up and return \$1.15. Train leaves Lacombe at 6 returning. There are many interesting features at the farm and all who are interested in farming should make it a point to attend.

Ches Latimer's two year old colt has again distinguished himself, winning first prize in his class at the Innisfail Fair. He was bred by W H S Luckhardt from his favorite driving mare, and sired by Flashline. This is not the first time that the latter's colts have come out on top.

The Eagle Creek school picnic on Wednesday was a great success. Quite a number from town went out, and several of the younger blood took in the dance in the evening. We were in hopes our reporter would send us in a full report. The reporter might have been "full" but the report of the picnic is empty.

The Retort Courteous
(Fat old man derisively)—To boy who has been watching body of mad dog, that had been shot. He! Ha! Ha!!!
(Boy) "You needn't laugh—I may have to watch you next!"

INNISFAIL NOTES

Miss Lundy is visiting friends in Didsbury this week.

Lots of school mams in Innisfail this week result of school convention.

The Alberta Hotel report business so rushing that they may add another 25 rooms to their already large and up to date hotel.

R C Smith has a change of ad. for next week and if you want a stove or any tin ware, you should see him. He sells a better quality of good and his prices are lower then elsewhere.

The Johnson Bros, Markerville, purchased the I. H. C. Auto from the Watt Bros, and are using same for their stage between Innisfail and Markerville. They are making the trip daily now and are doing a good business.

Liveryman Parker of Crossfield and Calgary was in town on Wednesday looking after the buying of hay and oats. In fact our town is the headquarters for liverymen those buying horse feed. But we are sorry to say that the oats and hay in this section is hard to find and the price high.

J F Fumerton's change of ad. came in a day to late this week.

He is putting on a special sale for Sat. and Mon. genuine bargains such as these—10 doz Misses and childrens hose, regular price 15 and 20c on Sat and Monday 10c. 15 doz Ladies black cotton Lisle finish, reg 20 and 25c special 14c. Ladies White Canvass Oxfords reg. \$1.90 sale price \$1.00. Misses White Canvass at 75c. 12 doz Glass tumblers 75c to 1.00, special 50c. 120 bottles of Grape Juice reg. 35c per bottle going at 25c. Do not miss these good things. There are many others.

Miss A G Latimer arrived from St Louis, Mo. on a visit to her parents Z T Latimer of Nesbit.

Mrs. W H Stark carried off quite a number of first class prizes at Innisfail fair for cooking and fancy work.

Mr Robinson the popular home-stead inspector of Innisfail was in town on Thursday.

Miss G. Greer and nephew Cecil Graham left last Tuesday for Bellingham where they will visit relatives for six weeks.

Mr O Randlemon of Acme was a visitor in Bowden this week. He had his famous pacer "Sidney B." with him.

Mr Jas Cornish returned from a trip to the east Saturday night where he was called home by the illness and death of his brother.

Under the auspices of the the Alberta Sunday School Association a public meeting was held in the Presbyterian church, Bowden, on Tuesday evening. The delegates were D A Gunn of Calgary and Rev. W Sinclair of Stettler. Both of the speakers delivered most interesting and helpful addresses dealing with the varied departments of Sunday school work illustrated by means of the blackboard. At the close questions were asked and answered. Revs Chalmers and Davies also took part in the meeting.

The Bowden Baseball team are visiting Red Deer on Friday evening to try their mettle with the Red Deer boys. The train leaves Bowden at 5.45 Friday evening, enabling the teams to play that night, returning on the early train Friday morning. All visitors should be on the platform well on time in order that the reduced fare of a fare and one third might be taken advantage of. Now, sports, turn out and support your team in a contest against one of the best towns along the line, and don't forget—Shout for Bowden.

QUALITY STORE

Now is the time to place your order for strawberries for preserving. The season will soon be on. and the Prices will be right for cash and produce only. We have a large line of fruit jars in quarts and half gallons.

Try our dustless sweeping compound for your floors, once used, never without after

A few Suits for men and boys left to go at cost. A new shipment of men's ties just to hand. They are beauties

White Swan Creamery

ROBT. McCUE, Proprietor

A Good Home will help

make married life a more pleasant one if the home is nice and comfortable. Its all right to "get the bird" but see us about building material for the "cage." Our prices will be right. Ask for free estimates.

GIVEN UP BY HIS PHYSICIAN

"FRUIT-A-TIVES" THE FAMOUS
FRUIT MEDICINE, SAVED HIS LIFE.

JAMES DINGWALL, Esq.

Williamstown, Ont., July 27th, 1908.
"I suffered all my life from Chronic Constipation and no doctor, or remedy, I ever tried helped me. 'Fruit-a-tives' promptly cured me. Also, last spring I had a bad attack of BLADDER and KIDNEY TROUBLE and the doctor gave me up but 'Fruit-a-tives' saved my life. I am now over eighty years of age and I strongly recommend 'Fruit-a-tives' for Constipation and Kidney Trouble."

(Signed) JAMES DINGWALL.
30c a box, 6 for \$2.50—or trial box, 25c—at dealers or from Fruit-a-tives Limited, Ottawa.

His Turn

"Which of you has been waiting the longest?" asked the doctor, coming from the consultation room.
"I have," replied the tailor. "I've been waiting for more than a year for you to pay for that suit of clothes."

Used according to directions, Dr. J. D. Kellogg's Dysentery Cordial will afford relief in the most acute form of summer complaint. Whenever the attack manifests itself no time should be lost in seeking the aid of the Cordial. It will act immediately on the stomach and intestines and allay the irritation and pain. A trial of it will convince anyone of the truth of these assertions.

"Pluck," said the financier, "is the secret of success." "Well," interrupted the shabby man, "I'll give you \$10 if you'll teach me your method of plucking."

Minard's Liniment Cures Distemper.

"What business did you say Miss Gadie was in?" "Oh, she's in everybody's business." "Wholesale, eh?" "Yes, except when it comes to a bit of scandal. She retails that."

Red, Weak, Weary, Watery Eyes.
Relieved by Murine Eye Remedy. Try Murine for your Eye Troubles. You will like Murine. It soothes. 50c at Your Druggists. Write for Eye Books Free. Murine Eye Remedy Co., Toronto.

"What's the most extravagant thing in married life?" asked Dorothy. "Sometimes," said the bachelor friend, "it's the husband, and sometimes it's the wife."

State of Ohio, City of Toledo, Lucas County.

Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.

FRANK J. CHENEY.

Sworn to before me and subscribed in my presence, this 6th day of December, A.D. 1886.

A. W. GLEASON.

(Seal) Notary Public
Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces of the system. Send for testimonials free.

THE SUNDAY SCHOOL

LESSON III.—THIRD QUARTER,
FOR JULY 17, 1910.

Text of the Lesson, Matt. xvi, 13-28.
Memory Verse, 28—Golden Text,
Matt. xvi, 18—Commentary Prepared
by Rev. D. M. Stearns.

Since He said to the Pharisees, "Can ye not discern the signs of the times?" (verse 3) is it not probable that we might profit by a similar question? For there is great need of men understanding the times, knowing what believes ought to do (I Chron. xi, 32). We need also to beware of the heaven of false doctrine, which seems to be fast leavening the lump. But many are more occupied with bread for the body than with the Living Bread, which alone can nourish the soul, so that our Lord has still to say: "Do ye not yet understand? How is it that ye do not understand?" (Verses 8, 11.) When He had finished the parables of the kingdom He said, "Have ye understood all these things?" (xiii, 51.) As it is through faith that we understand (Heb. xi, 3), His question at least includes the other, "Do ye believe these things?"

"Whom say ye that I am?" (verse 15) or, as He put it in xxii, 42, "Whom think ye of Christ?" is the most important question that could be asked any one. What we think of a particular doctrine is a minor matter, for a right view of Christ Himself will rectify all else—that is, right views of His sufferings and His glory. Peter's reply, "Thou art the Christ, the Son of the living God" (verse 16), was the right thing to say. Hear him say it again in John vi, 69, and hear Martha say it in John xi, 27. Yet this did not fully establish either Peter or Martha, although it was a heaven revealed truth, because they did not grasp the suffering which it included. Not only does Jesus rejoice with Simon that God had revealed this to him, but He speaks for the first time of His church not as something which He had been building, but in these words: "Upon this rock I will build My church" (verse 18). He said, "Thou art Peter (petros, a little rock), and upon this rock (petra, a solid ledge) I will build My church." Not Peter, but the great truth of Peter's confession, is the rock, the solid foundation. See his own testimony in I Pet. ii, 6, 7. The building of this church or called out company from Jews and gentiles does not depend upon our faithfulness, for hath He said and shall He not do it? But He is willing to use all who are willing to be used, and every living stone may bring other stones. The consummation is sure, whoever may or may not help, and the pearl, the church, shall be glorious and without spot or wrinkle or any such thing (Eph. v, 27).

What a comfort it is that no wisdom from the pit, no unbelief or science called Christian or aught else can ever prevail against it! Peter was commissioned to open the door both to Jews and gentiles into the present age mystery of the kingdom. See Pentecost and the house of Cornelius. Note the keys of the kingdom, not the keys of the church. The power of binding and loosing was shared by the other disciples (Matt. xviii, 18; John xx, 23. (C. I. S.)) A business man on the road is in a sense the firm which represents, and his transactions are in the name of the firm. So every believer is commissioned in the name of the Lord Jesus, in the power of the Spirit, to take the word of God and show sinners their sins and point them to the Saviour. And if they receive Him the believer is authorized to show them in the word the result of their receiving Him or otherwise.

The disciples had been proclaiming Jesus as the Christ—i. e., the covenant King of a kingdom promised to the Jews and "at hand." The church, on the contrary, must be built upon testimony to Him as crucified, risen from the dead, ascended and made "head over all things to the church" (Eph. i, 20-23). (C. I. S.) The kingdom being postponed, the age of the mystery of the kingdom having been described, the church mentioned and its building assured, He now tells them plainly that He must suffer, be killed by the Jewish rulers and be raised again the third day (verse 21; xvii, 23; xx, 19). Peter, who had declared the rock foundation truth on which the church is to be built, now dares in all his love for Him to say that He must not talk so, must not think of being so ill treated. "Be it far from Thee, Lord; this shall not be unto Thee" (verse 22), or, as in the margin, "Pity Thyself, Lord." Thus is Peter blind to all the Scriptures concerning His sufferings and speaks as from the wicked one rather than from the Spirit, as before. When filled with the Spirit of God no one had more to say about the sufferings of Christ and our suffering with Him than this same Peter. See his first epistle. Our Lord then added His oft repeated words concerning denying self, taking up the cross, following Him, losing one's life in order to save it (Matt. x, 37-39; Luke xiv, 26, 27, 33; John xii, 25).

There is no such thing in Scripture as a beautiful cross, a cross of gold or flowers. It is always a cruel cross, which suggests a lingering death, and if we are true followers of Jesus there must be a constant dying to self that the life of Jesus may be made manifest in us (II Cor. iv, 10, 11).

Canada's Wheat at French Exposition
Ottawa.—The department of trade and commerce has decided to send an exhibit of Canadian wheat to the exposition of wheat products to be held in Marseilles, France, during the month of September.

HOME OF THE 'PHONE.

Brantford Has a Double Claim to That Distinction.

Brantford, Ontario, as everybody knows, bases its claim to the title of the Telephone City on the fact that Alexander Graham Bell, the telephone inventor, lived for a time in that city. It is, however, the habit of United States journalists in referring to Prof. Bell's career to claim him as an American, and to give the impression that he spent only a few months in Brantford in his youth. In this connection it is interesting to note just exactly what are the claims of that city to the title it so proudly claims, and which it is soon to emphasize for all time by the purchase of the Bell homestead, and the erection of a handsome memorial, which Walter S. Allward, the Toronto sculptor and contractor, expects to complete by July 1, 1912. The inventor was born in Edinburgh, Scotland, and became a teacher of elocution, which was also the profession of his father. The latter moved to Brantford, and in 1870 Alexander came to Canada and took up residence with his parents at their home at Tutela Heights. He was called to Boston to experiment with deaf mutes in 1871, but until 1873 he spent much of his time at his Brantford home. In 1874 and 1875, during his summer holidays, he succeeded in making important advances in telephony. The work done in 1875 enabled him to secure his first patent on March 7, 1876.

The year 1876 was a red-letter year for the telephone. Prof. Bell was confident that he had conquered space so far as transmitting the human voice was concerned, and returned to Canada in July to demonstrate the success of his invention. What followed is outlined in a recent issue of The Brantford Expositor. His first important experiment was that of transmitting the voice of the persons simultaneously. He had a triple mouthpiece made for one of his membrane telephones. This telephone he placed in an outbuilding of his father's house. The iron-box receiver was placed on the verandah of the cottage. The three voices were successfully reproduced by the diaphragm of the receiver.

In the second week in August, three experiments took place that indisputably confirm Brantford's right to the title, "The Telephone City." The most important experiment was between Brantford and Paris. For this experiment the telegraph line was used. Prof. Bell secured some singers to sing a three-part song into a triple mouthpiece. He drove to Paris and attached the iron-box receiver to one of the lines leading to Brantford. He first heard "bubbling and crackling sounds," to use his own words. Mixed with this storm of noises, he could plainly perceive the voices of the speakers and singers in Brantford, in a faint, faraway sort of manner. He had electro-magnets of high resistance substituted for the low resistance ones that were being used. The vocal sounds were then sufficiently loud and clear to enable him to distinguish familiar voices. His triumph was complete; he was rewarded for years of toil and privation. According to Prof. Graham himself this was the first time that words were spoken in one place, were transmitted by electrical means, and successfully reproduced in another place many miles away.

These experiments justify Brantford's claim to the title, "The Telephone City." They enabled Prof. Bell to obtain a patent covering important mechanical features of apparatus for transmitting human speech.

As though to emphasize her right to the title, the Lorimer Automatic Telephone was invented and largely brought to perfection in Brantford. This is an invention, which, it is claimed will be to telephony what electricity has been to traction. The present is an automatic age. In many ways the machine has taken the place of horse and man. It will not be surprising if the machine telephone dooms the "hello girl" to extinction.

Surfboat Makes Rescue.

The crew of the French ship Marechal Suchet, which ran ashore in a recent storm was brought off by the Margate surfboat. Friend to all Nations and safely landed, together with the ship's black cat. Powerful tugs had failed to get the ship clear of the sands, and when the lifeboatmen left the seas were breaking over her. The vessel was laden with mahogany and had been on a two years' voyage.

Pains about Heart Splitting Headaches

Caused Much Suffering and Alarm—
But All is Well Now Since Using
DR. CHASE'S NERVE FOOD.

Nearly everybody gets serious when the heart is affected.

Headache often tells of just as great danger but headache is so common that it often falls as an alarm signal.

You are never in greater danger than when the nervous system becomes exhausted. For there is then every reason to look forward to some form of paralysis and consequent helplessness of mind or body.

Sleeplessness, headaches, indigestion, irritability, nervousness, loss of interest in things about you and inability to concentrate the mind are some of the symptoms of approaching nervous collapse.

Let the writer of this letter tell you what Dr. Chase's Nerve Food did for him when in such a condition.

Mr. J. Law, 247 Hunter street, Peterborough, Ont., and who is employed with the Peter Hamilton Co., states: "For a long time I was troubled with severe splitting headaches, and

suffered a great deal with pains in the region of my heart, caused no doubt by indigestion. I procured a box of Dr. Chase's Nerve Food, and began this treatment. Since using this preparation for some time, I can say that I feel quite different, and my health is very much improved. My digestion is good, and the headaches and pains about my heart have not troubled me at all of late. I can sincerely recommend Dr. Chase's Nerve Food as a thorough cure for nervous dyspepsia and its accompanying symptoms."

You can rely on Dr. Chase's Nerve Food to bring you safely out of trouble when the nerves become exhausted, because it supplies in condensed and easily assimilated form the ingredients which nature requires to build up the new nerve cells.

In severe cases treatment must be regular and persistent but you will soon notice signs of improvement which will give you encouragement. Why not get started on the road to health to-day? Dr. Chase's Nerve Food, 40 cts. a box, all dealers, or Edmanston, Bates & Co., Toronto.

Hedged All Round

Stubbs—Hello, old boy! I'm so glad to see you.

Dubbs—There must be some mistake. I owe you nothing. I'm not in condition to place you in position to owe me, and we are not living out of town this summer.

Sports Day Postponed

From Trochu Times

The morning of July 15th started with a heavy downpour of rain which lasted well on into noon. At that hour, it was considered too late to carry out the Sports Day program and the committee decided to postpone the event to Friday July 22nd. A large number of people however, arrived in the village after one o'clock and in order to afford them some entertainment a Free-for-all and Boy's Pony race were run.

The result of the Free for all race came as a distinct surprise to all followers of the turf. "Watch-Chain" and "Ellis Glen" certainly looked the most promising entries, and being thoro' bred, the race was thought to be safely in the hands of one of the owners. At any rate, nobody dreamed that old "Dick" owned by Lawrence Brown possessed the speed to out match the thoro' bred. The first heat was won by Dick, followed closely at heel by Watch chain as second. Dick, however, had a favorable start and it was quite evident that if Watch-chain had been given a better chance at the start she would have won the heat for her owner. The second heat was won by Dick with Watchchain as second but this time after the half mile "Watchchain" fell rapidly behind pulling up at the finish quite winded and many lengths behind.

The boys pony race of three heats proved a very successful race, both the start and the finish being exceedingly good on each occasion. Stockings owned by J Baptist was easily the best pony on the track coming in comfortably first in the two first heats. Gipsy Bell owned by T B Lauder won second place giving stockings an excellent run in the first heat. Both ponies showed good speed and training.

OLDS NEWS

N T Haggan came up from Calgary on July 21st.

Mr and Mrs Geo Sannus of Sarnia Ont. visited relatives and friends in Olds last week.

A M and Geo Bush are on a fishing expedition to Pine Lake this week.

Geo Cloakey made a flying trip to Trochu on July 12th in his auto. Didsbury and Olds played a very good game of foot ball on the 12th result 1 to 0 in favor of Didsbury.

Bert Clark won the three mile race at Olds on Sports Day.

F E Lehr of the Crown Lumber Co was in Olds this week.

The Olds races on Sports Day were very largely attended and every thing went off in grand style and every body went home saying they had spent a most pleasant day.

Harry Collins' pacer won in the 1-2 mile race (in a walk).

Mr and Mrs Hayes returned to Seattle on Monday, they were highly pleased with the country and purchased the Wriggleworth place west of town.

The weather in the Olds district is ideal with warm days and plenty of rain.

Mrs H A Samis and son George are both on the sick list this week.

LAKEVIEW.

Rev T H Lonsdale attended the services on Sunday evening preached by Mr Craig.

Mr and Mrs McRea of Arthurvale were over to church on Sunday. Lakeview creamery is turning out two thousand pounds of butter weekly.

Church every Sunday evening at 8 p.m., and Sunday school every Sunday at 2 p.m.

Mrs A Lusk of Huxley was over to the Dominion day picnic.

Mr and Mrs Harris of the Wood Lake district were shopping in town on Saturday.

Mr and Mrs Harris will sing at the church on Sunday the 24th inst. All are invited to attend.

Cream is being rushed into the Lake View creamery while the price of butter remains good.

Mr and Mrs D S Milne are comfortably settled in their new home.

Rev Lonsdale and Mr Gordon Smith were in town on Monday last.

Mr Kelley is having a well drilled on his farm west of town.

Mr Ralph Heedham the popular rancher of Lake View is looking up 'strays.

The merchants of Lakeview are doing a fine trade this summer.

The picnic on Dominion Day was a great success.

J Dobson is improving his farm east of the Red Deer.

The young son of Geo Burgess has been ill for a few days but is at present better.

A grand Sunday school convention will be held in Red Deer on July 21st and 22nd.

Mr E Kelly of Innisfail has let the contract for his dwelling west of town.

Mr Alex Stephens has built a livery barn in Trochu.

Rev S J Jerdine of Milberton was visiting in this district on Monday last.

Mrs Burgess and Mrs Milne, were in town last Wednesday.

Mr D T Milne and family have moved into their new home on their farm north of town.

Mr and Mrs W A Barnes were shopping in town on Wednesday.

For Western Canada's Great Industrial Fair at Winnipeg, July 13, 1910, the Canadian Pacific R'y Co. will have in effect special rates. For full particulars as to rates, etc. apply to nearest Canadian Pacific ticket agent. 52

CHAPTER XII. THE LANTERN ABOVE.

CHASE sat for hours on his porch that night gazing down upon the chateau. Lights gleamed in a hundred of its windows. The bitterness of his own isolation, the ostracism that circumstance had forced upon him, would have been maddening on this night had not all rancor been tempered by the glorious achievement in the market place. He wondered if the princess knew what he had dared and what he had accomplished in the early hours of the night. He wondered if they had pointed out his solitary light to her—if now and then she bestowed a casual glance upon that twinkling star of his. The porch lantern hung almost directly above his head.

The chateau was indeed the home of revelry. The pent up, struggling spirits of those who had dwelt therein for months in solitude arose in the wild stampede for freedom. All petty differences between Lady Deppingham and Drusilla Browne, and they were quite common now, were forgotten in the whirlwind of relief that came with the strangers from the yacht. Mrs. Browne's good looking, eager husband reveled in the prospect of this delicious night, this almost Arabian night. He was swept off his feet by the radiant princess, the Scheherazade of his boyhood dreams. His blithe heart thumped as it had not done since he was a boy. The Duchess of N. and the handsome Marchioness of B. came into his tired, hungry life at a moment when it most needed the light. It was he who fairly dragged Lady Agnes aside and proposed the banquet, the dance, the concert—everything—and it was he who carried out the hundred spasmodic instructions that she gave.

Late in the night, long after the dinner and the dance, the tired but happy company flocked to the picturesque hanging garden for rest and the last refreshment.

The hanging garden was a wonderfully constructed open air pleasure suspended between the chateau itself and the great cliff in whose shadow it stood. The cliff towered at least 300 feet above the roof of the spreading chateau, a veritable stone wall that extended for a mile or more in either direction.

Near the chateau there was a real waterfall, reminding one in no small sense of the misty veil at Lauterbrunnen or Giesbach. The swift stream which obtained life from these falls, big and little, ran along the base of the cliff for some distance and was then diverted by means of a deep, artificial channel into an almost complete circuit of the chateau, forming the moat. It sped along at the foot of the upper terrace, a wide torrent that washed between solid walls of masonry, which rose to a height of not less than ten feet on either side. There were two drawbridges, seldom used, but always practicable. A small stationary bridge crossed the vicious stream immediately below the hanging garden and led to the ladders by which one ascended to the caverns that ran far back into the mountain.

Two big black irregular holes in the face of the cliff marked the entrance to these deep, rambling caves, wonderful caverns wrought by the convulsions of the dead volcano, cracks made by these splintering earthquakes when the island was new.

The garden hung high between the building and the cliff, swung by a score of great steel cables. These cables were riveted soundly in the solid rock of the cliff at one end and fastened as safely to the stone walls of the chateau at the other. It swung stanchly from its moorings with the constancy of a suspension bridge and trembled at the slightest touch.

It was at least a hundred feet square. The floor was covered with a foot or more of soil, in which the rich grass and plants of the tropics flourished. Cool fountains sprayed the air at either end of the green inclosure. The illusion was complete.

The walls surrounding the garden were three feet high and were intended to represent the typical English garden wall of brick. To gain access to the hanging garden one crossed a narrow bridge which led from the second balcony of the chateau. There was not an hour in the day when pro-

tection from the sun could not be found in this little paradise.

Bobby Browne was holding forth with his usual exuberance on the magnificence of the British navy.

"There she is now, sleeping out there in the harbor, a great big thing with the kindest of hearts inside of those steel ribs—her majesty's ship the King's Own! Think of it! She conveys a private yacht, she stops off at this beastly island to catch her breath and to see that all are safe, then she charges off into the horizon like a bird that has no home. May I offer you a cigarette, princess? By the way, I wonder how Chase came off with his side show."

"Saunders tells me that he was near to being butchered, but luck was with him," said Deppingham. "His ship came home."

"It was a daring trick. I'm glad he pulled it off. He's a man, that fellow is," said Browne. "See, princess, away up there in the mountain is his home. There's a light. See it? He keeps rather late hours, you see."

"Tell me about him," said the princess suddenly. She arose and walked to the vine covered wall, followed by Bobby Browne.

"I don't know much to tell you," said he. "He's made an enemy or two, and they are trying to drive him out. We've asked him down here just because we can't bear to think of a fellow creature wasting his days in utter loneliness, but he has so far declined with thanks. The islanders are beginning to hate him. They distrust him, Britt says. Of course you know why we are here. You?"

"Every one knows, Mr. Browne. You are the most interesting quartet in the world just now. Every one is wondering how it is going to end. What a pity you can't marry Lady Agnes!"

"Oh, I say!" protested Browne. She laughed merrily.

"But how dull it must be for Mr. Chase! Does he complain?"

"I can't say that he does. Britt—that's my lawyer—Britt says he's never heard a murmur from him. He takes his medicine with a smile. I like that sort of fellow, and I wish he'd be a little more friendly."

"He has learned to know and keep his place," said she coolly. Perhaps she was thinking of his last night in the palace garden. Away up there in the darkness gleamed his single, lonely, pathetic little light. "Isn't it rather odd, Mr. Browne, that his light should be burning at 2 o'clock in the morning? Is it his custom to sit up?"

"I've never noticed it before, now you speak of it. I hope nothing serious has happened to him. He may have been injured in— I say, if you don't mind, I'll ask some one to telephone up to his place."

"Yes, do telephone," she broke in. "I am sure Lady Deppingham will approve. No, thank you. I will stand here awhile. It is cool, and I love the stars." Five minutes later he returned to her, accompanied by Lady Agnes. She was still looking at the stars.

"Lady Deppingham called him up," said Bobby.

"And he answered in person," said her ladyship. "He seemed strangely agitated for a moment or two, Geneva, and then he laughed—yes, laughed in my face, although it was such a long way off. I asked him if he was ill or had been hurt. He said he never felt better in his life and hadn't a scratch. He laughed—I suppose to show me that he was all right. Then he asked me to thank you for bringing a warship. You saved his life. Really one would think you were quite a heroine or a godsend or something like that. I never heard anything sweeter than the way he said good night to me. There!"

The light in the bungalow bobbed mysteriously for an instant and then went out.

"How far is it from here?" asked the princess abruptly.

"Nearly two miles as the crow flies, only there are no crows here. Five miles by the road, I fancy. Isn't it, Bobby? I call him Bobby, you know, when we are all on good terms. I don't see why I shouldn't if you stop to think how near to being married to each other we are at this very instant."

"I wonder if help could reach him quickly in the event of an attack."

"It could if he'd have the kindness to notify us by phone," said Browne.

"But he wouldn't telephone to us," said Lady Deppingham ruefully. "He's not so communicative as that."

"Surely he would call upon you for help if he?"

"You don't know him, Geneva."

The princess smiled in a vague sort of way. "I've met him quite informally, if you remember."

"I should say it was informally. It's the most delicious story I've ever heard. You must tell it to Mr. Browne, dear. It's all about the enemy in Thorberg, Mr. Browne. There's your wife calling, Bobby. She wants you to tell that story again about the bishop who rang the doorbell."

The next morning the captain of the King's Own came ashore and was taken to the chateau for dejeuner. Late in the afternoon the marquis and his party, saying farewell to the princess and the revived legates, put out to

the yacht and steamed away in the wake of the great warship. The yacht was to return in a month to pick up the princess.

Geneva, her maids, her men and her boxes, her poodle and her dachshund were left behind for the month of March—not without misgiving. It must be said, for the marquis, her uncle, was not disposed to look upon the island situation as a spot of long continued peace.

"You won't be able to get help as cleverly and as timely as that American chap got it last night," protested the marquis. "Warships don't browse around like gulls, you know. Karl will never forgive me if I leave you here."

"Karl is of a very forgiving nature, uncle, dear," said Geneva sweetly. "He forgave you for defending Mr."

"I hope no harm comes to you here in this beastly place!"

Chase, because you are such a nice Englishman. I've induced him to forgive Mr. Chase because he's such a nice American—although Mr. Chase doesn't seem to know it—and I'm quite sure Karl would shake his hand if he should come upon him anywhere. Leave Karl to me, uncle."

And so they sailed away without her, just as she had intended from the beginning. Lord Deppingham stood beside her on the pier as the shore party waved its adieu to the yacht.

"By Jove, Geneva, I hope no harm comes to you here in this beastly place!" said he, a look of anxiety in his honest eyes. "There goes our salvation if any rumpus should come up. We can't call 'em out of the sky as Chase did last night. Lucky beggar! That fellow Chase is ripping by Jove! That's what he is. I wish he'd open up his heart a bit and ask us into that devilish American war of his."

"He owes us something for the warship we delivered to him last night," said Bobby. "He has made good with his warship story, after all, thanks to the King's Own and Britt."

"And the fairy princess," added Lady Deppingham.

"I am doubly glad I came if you include me in the miracle," said Geneva, shuddering a little as she looked at the lounging natives. "Isn't it rather more of a miracle that I should come upon mine ancient champion in this unheard of corner of the globe?"

"I'd like to hear the story of Chase and his adventures in the queen's garden," reminded Bobby Browne.

"I'll tell it to you tonight, my children," said the princess as they started for the palanquins.

Hollingsworth Chase dodged into the American bar just in time to escape the charge of spying.

(To be Continued.)

The Riches of the Joiceys.

Lord Joicey, whose letter on the budget has surprised the leaders of the Liberal party, is a man who has both inherited and made enormous wealth. The riches of the Joiceys spring from the coalfields of Durham. Lord Joicey can, in fact, truly claim that he is the greatest coalowner in the world, thousands of men working every day in his pits. Some years ago Lord Joicey's firm took a lease of Lord Durham's pits. The price paid, as announced at the time, was \$5,500,000, but the coal boom came, and the profits in little more than two years paid off the capital expenditure.

Flower and Tree.

A white pine will measure twenty-five feet at twenty years and gain twenty-five feet more in the next ten years.

The smallest tree in the world is the Greenland birch. Its height is less than three inches, yet it covers a radius of two or three feet.

The best of British Columbia forests is a plant called the devil's club. It has spikes which when they enter the flesh break off and produce poisoned wounds, which fester.

DAIRY WORK IN INDIA.

Mr. Bryamjee Cowasjee Says His Country Is Away Behind.

Mr. Bryamjee Cowasjee, of the Imperial Dairy Co., Bombay, India, has been in Toronto visiting the leading dairies. Mr. Cowasjee has traveled extensively throughout Europe, England and America making investigations into the various methods of conducting dairy work.

In an interview, he said that "Holland is far and away ahead of any other nation in its dairy work, and especially in butter-making. In India," continued Mr. Cowasjee, "we have not the machinery that you use here and not the strict laws of sanitation, and I shall take much back with me that will be of great service to my countrymen. We are a century behind you in this as in many other things."

"The circumstances, however, are so different that I hardly know what to do. In India we do not drink cow's milk, as you do here, but buffalo's milk. There is more fat in it than in the cow's milk, and the heat presents many difficulties that you have not here. There is from six to eight per cent. of fat in buffalo milk. The approximate analysis of butter made from buffalo milk is: Water, 14.08 per cent.; fat, 83.30 per cent.; casein and curds, 0.34 per cent.; salt (sodium chloride), 1.78 per cent."

"The largest milk depot I have ever seen is in Berlin, Germany, though the Toronto dairies are an education for cleanliness and efficiency."

"The farmers of India are ignorant and uneducated, and it is hard to introduce any improvements among them."

"Up to now we have been wasting a good deal of skimmed milk, but when I go back we shall make cheese of it. You see, Hindus are largely vegetarians, and therefore have no pigs to feed with skimmed milk. I will also introduce the most modern types of machinery. Owing to the heat, we have to put the milk in airtight tins, and I am going to have machinery sent over, also, to make these tins."

"I have learned much during my travels, chiefly the importance of attending to minor details, which hitherto we have neglected," concluded Mr. Cowasjee.

Paper of the Ancients.

The interior bark of trees was formerly used to write upon, and its Latin name (liber, a bark) seems to intimate that its use was as ancient as the art of writing itself. In one respect the bark was superior to the leaf. It could be rolled into a volume, while the leaf would crack if subjected to such a process.

United States Seals.

There have been three great seals of the United States—one in 1812, a second in 1841 and that of 1885, which is used at the present day by the secretary of state. He affixes it to communications signed by the president.

Church Bells in Mexico.

It takes a great army of men to keep the church bells going in Mexico. It is estimated that in the City of Mexico alone there are more than 2,000 bell ringers regularly employed.

SARTORIAL NEWS.

Charming Materials For the Summer Frocks.

The dainties this season are charming and unusually varied in coloring and design. There are lovely dainties in buff and brownish yellow and gold, and these colors in combination with white are bewitchingly cool and pretty in the striped effects. Other colors besides yellow are exploited in dot and striped designs, the dots being of the wafer kind set closely upon a background of white or color.

Copper, the newest of the metallic ribbons, with a heavy moire stripe

A Dainty Little Frock.

running through the center and bordering the edges, is a smart trimming for the new hats.

Little girl's frocks that are made with slightly long waists in French style are pretty and in the height of fashion. The dress in the cut is of embroidered marquisette with trimmings of baby Irish lace.

JUDIC CHOLLET.

This May Manton pattern comes in sizes from six to twelve years of age. Send 10 cents to this office, giving number, 6872, and it will be promptly forwarded to you by mail. If in haste send an additional two cent stamp for letter postage, which insures more prompt delivery.

Big Price For Old China.

An old china vase painted with flowers and fruit, and pierced with trellis-work, 15 1/2 inches high, was sold for 250 guineas at London the other day.

G.T.P. WORKING SOUTH

GRADING OUTFITS BETWEEN IRRICANA AND CALGARY

Five Hundred Teams Are at Work Between Alix and the C. P. R. Irrigation Block—Expected That the Road Will Enter Calgary Not Much Behind the Canadian Northern.

Calgary.—That the entrance of the Grand Trunk Pacific railway into Calgary will not be delayed many months after that of the Canadian Northern is evidenced by the manner in which the work is being rushed ahead on the Tofteld-to-Calgary branch. Several grading outfits are at work between the crossing of the Langdon branch near Irricana and Calgary, and all the grading is completed between the Battle and Red Deer rivers.

The high-level bridge across the Battle river is about completed, and construction trains will be running over it next week carrying steel for the grade south. In the construction of this bridge over four million feet of lumber were used and the work occupied six months. The only other bridge of any importance now to be built is that across the Red Deer river, south of Alix.

Mr. W. A. Lowry has received word that the G. T. P. has taken over the townsite of Duhamel, about twelve miles south of Camrose, and will start the erection of a railway station there equal to any on the Tofteld-to-Calgary branch.

The construction of the bridge across the Red Deer river may delay track laying between that point and Calgary for a few weeks, but in the meantime the work of grading will be completed, and when track laying is resumed it will proceed at the rate of over one mile per day.

Revenue of Canada Still Keeping Up

Ottawa.—The total revenue for the Dominion during June was \$9,612,677.38, compared with \$7,978,892.42 in the same month last year.

The expenditure on the consolidated account last month was \$9,612,677.38, as compared with \$7,978,892.42 in June, 1909. In the first three months of the fiscal year the outlay was \$8,833,107, compared with \$8,816,746 in the corresponding quarter of last year.

The revenue for the quarter totalled \$36,334,853, as against \$31,593,872 in the corresponding quarter.

On the capital account the June expenditure was \$1,652,339, and for the quarter \$3,150,053, as compared with \$2,913,284 and \$4,014,298, respectively. The main item of expenditure for the quarter was \$2,908,536 on public works, railways and canals. The net debt of the Dominion now totals \$322,405,328, and the total assets \$160,584,394.

Horses for Army to Be Raised Here

St. Catharines.—Major-General Frederick William Benson, who has been made K. C. B., is shortly leaving the Old Country or Canada where, with General Cook, he will establish a ranch in the vicinity of Calgary for raising remounts for the British army. The new knight was born at St. Catharines in 1849. He is the third son of the late Hon. J. R. Benson, of the Canadian senate. He afterwards went over to England and became a soldier; he served during the South African war and was mentioned in despatches from 1903 to 1907. He acted as director of transports and remounts.

Interesting Canadian Map

Ottawa.—The geographical branch of the department of interior have just completed two huge maps of Canada which will be used for exhibition purposes. They are 15 feet by 9 feet 6 inches. One is a mineral map showing the location of all minerals of economic value throughout the Dominion and the working mines, differentiating being obtained by means of various colors. The scale is 20 miles to the inch. The railway map shows the railway systems in different colors and also the proposed government routes to Hudson Bay.

Canadians Capture Prize

Bisley Camp.—After leading by six points over the mother country in the first two stages, 900 and 500 yards, for the Kolapore cup, open to teams of eight from the empire, the Canadian team fell off in the final stage of 600 yards, scoring eight points less than the mother country, who thus won by two points. The Canadians, however, won the Colonial prize of eighty pounds sterling, for the top colonial team. Australia, Guernsey, India, Malay States, Singapore and South Africa also shot.

Celebrated Soldier Concludes Visit

Quebec.—General Sir John French, accompanied by Brigadier-General Henderson and Major Watt, left the other day by steamer for England. When General French arrived on the wharf he was met by Major-General Lake, Col. Pelletier, Doc. Major Howard and Major Halliston, while a guard of honor of fifty men from the R. C. R. presented arms as the distinguished general went on board the steamer, and the R. C. G. A. band played the national anthem.

Portugal's New Tariff

Lisbon.—The government is preparing a general revision of the tariff. It will lower the duties against countries which have no commercial treaties with Portugal and will increase them from thirty per cent against others.

TECHNICAL TRAINING

Preliminary Meeting of the Royal Commission on Industrial Training

Ottawa.—A preliminary meeting of the royal commission on industrial training and technical education was held in the ministers' rooms in the department of labor recently. There were present the Hon. W. L. Mackenzie King, minister, and the following members of the commission, viz.: Dr. J. W. Robertson, chairman; Hon. J. N. Armstrong, Rev. Geo. Bryce, Gaillard Desserres, Gilbert M. Murray, David Forsythe, James Simpson, and Thomas Bengough, secretary.

Proceedings were opened with a statement by the minister relating to the general circumstances under which the commission was appointed and outlining the work of the body. Mr. King emphasized the importance of the commission conducting its proceedings so as to be the means of furthering the industrial efficiency of the Dominion. He doubted if ever a commission had been issued by the federal government which had quite the same opportunity of rendering a national service to the country.

The minister said the information gathered will be placed at the disposal of the province, and he had received replies which were favorable from all the provinces. The reply of Premier Roblin of Manitoba had been non-committal, but a previous letter from him had been an endorsement of the idea. Hon. Mr. King said the commissioners were to go east and west in Canada finding out the needs and the present equipment of the country, taking an industrial survey of the country as it were. The members of the commission were entertained at luncheon at the Rideau club by Mr. King.

Trainmen and C. P. R. Agree

Montreal.—The trainmen's dispute with the Canadian Pacific is settled and nothing remains but to draft and sign the agreement. No official statement has been made yet, but it is known that it provides for a pay rate a little exceeding that recommended by the conciliation board.

Otherwise conditions are radically changed in favor of the men.

President Hays of the Grand Trunk has offered the men an increase equivalent to the recommendation in the award of the majority report of the conciliation board, or if the men are not in favor of this to refer the whole matter to a board of experienced railway men for settlement, binding the Grand Trunk to accept their finding if the men do the same.

He declares that the Canadian Pacific could not pay their high rates if it were not for their western business which, he says, the Grand Trunk will be able to do when they get their western connections.

Japan and Russia Will Be Friendly

St. Petersburg.—The Russo-Japanese convention covering the interests of the two nations in the far east which was signed recently by M. Iswolsky, minister of foreign affairs, and Ambassador Motono, for Japan, expressed the sincere attachment of the two governments to the principles of the Russo-Japanese convention of July 30, 1907.

It states that the desire by the present instrument to develop and perfect the arrangements of that treaty with the object of facilitating communication and commerce between the two nations, they pledge their friendly co-operation to the task of improving the service of the railroads and agree to abstain from all harmful competitions.

Many Applicants for Naval College

Ottawa.—It is expected that the naval college at Halifax will be ready for training for the naval cadets by October. Nearly 200 applications already have been received from young Canadians desirous of going through college. The enlistment of marines for service on the training ships Rainbow on the Pacific and the Niobe on the Atlantic will be commenced at an early date.

British Boys Would Do for Canada

London.—Sir Albert Spicer suggests that suitable emigrants for Canada would be postoffice boys, 4,400 of whom were discharged during the past two years. He points out that they are of good character, experienced in discipline and training in public service. The suggestion is deemed worthy of consideration here. It is thought that the postoffice authorities, by consulting with the Dominion government, might find openings for most of these boys.

Lots of Work for All Who Want Work

Lethbridge.—Upon being spoken to with regard to having the provincial government undertake public works so as to provide work for the homesteaders who have no crops, Hon. A. J. MacLean said that J. D. MacGregor of the South Alberta Land company told him that he could supply work for all the homesteaders and their teams that could come to him. The work is on the great irrigation canals and reservoirs that the company are making.

Italian Physician Has Cure for Cancer

Rome.—Prof. Fichera has announced to the institute of experimental hygiene the discovery of a cure for cancer. The cure consists of injections of serum from the human embryo. The professor says that he has cured several hopeless cases at the cancer hospitals. He has also experimented successfully with the same remedy in cases of anaemia.

VAST COAL DEPOSITS

IMPORTANT COAL SEAMS WERE DISCOVERED LAST YEAR

The Annual Report of the Director of Surveys of the Geological Board of the Department of Mines, Recently Issued, Gives Important Data of Coal Discoveries in British Columbia and Alberta.

Ottawa.—In the annual report of the director of surveys of the geological branch of the department of mines just issued the statement is made that the staff of the survey branch is too weak to cope with the pressing work of such an extensive country as Canada. In order to overcome the difficulty it had been necessary to engage outside experts. The report states that some important discoveries were made by a member of the staff of survey during the year and were reported during the past season.

D. D. Cairns discovered a new occurrence of coal in White Horse district in British Columbia, and D. B. Dowling found a new and apparently important coal basin in Alberta reaching north from the Saskatchewan to the source of the Macleod river. W. H. Collins has reported on the Montreal river district which includes Gowganda and Maple Mountain districts. He states that the outlook of the district as shown by recent work appears to be satisfactory. Though not equal to expectations the widespread distribution of ore offers serious disadvantages to economical mining in regard to larger Lake district. M. E. Wilson reports that gold values are confined almost entirely to stringers of quartz which in many instances contain no gold or too little for profitable mining.

Woman Aviator Falls and May Die

Plain of Rheims.—The second disastrous accident of the aviation meet now in progress here occurred when the Baroness de Laroche, driving a Voisin biplane, lost her nerve when at a height of 50 metres, shut off the power and fell with her machine to the ground. Her legs and arms were broken and she also suffered severe concussion, but the doctors who are treating her hope for her ultimate recovery. It was at first believed that the baroness had sustained a fractured skull but this proved not to have been the case.

At a height of 80 metres the baroness had flown once around the field. The spectators in the grand stand were applauding her vociferously. Suddenly she appeared frightened by the approach of two other machines, one of which, a Sommer, driven by M. Lindpainter, passed directly over her. The baroness, in a period of consciousness after the accident, said the rush of air from the motor overhead threw her into consternation and that she cut off the ignition and lost control of her biplane. At first the machine glided on an even keel but suddenly it turned over and fell to the ground and was wrecked.

C. N. R. Station for Calgary

Calgary.—Plans for a mammoth structure, which will be the combined depot and hotel of the Canadian Northern railway, have already been prepared and work on the new building will be commenced within the next 60 days. The new building will be up-to-date in every respect, being somewhat after the design of the Royal Alexandra in Winnipeg insofar as the hotel part of it is concerned, while the depot part of the structure will be equal in size to the present C. P. R. station, although of a somewhat different design.

The route by which the Canadian Northern will enter the city has also been definitely settled, and the route plans have already been filed, while work on the grading has been rushed ahead to such an extent that the grading outfits should be in sight of Calgary within the next six or eight weeks.

500 Excursionists Left for England

Toronto.—Over 500 men, women and children of British birth or descent left the Union station for Montreal en route to England. Two hundred more joined the party at Montreal. It is said to be the biggest excursion party ever taken out of Canada to cross the Atlantic. Every member of the party is pledged to induce at least one Briton to come to Canada. The trip is under the auspices of the Sons of England.

J. D. Rockefeller Has a Birthday

Cleveland, O.—John D. Rockefeller celebrated his 71st birthday anniversary in the same manner as he spends practically every other day of his summers in Forest-Hill. In the morning he took a short automobile ride into the country and during the afternoon he planned a game of golf. There were several telegrams of congratulation from friends.

Commission Will Visit This Province

Ottawa.—The technical education commission met recently and started to map out their itinerary for the maritime province. The itinerary is not yet completed. They will go to the principal points in Quebec, Ontario, Manitoba, Saskatchewan, Alberta and British Columbia, and expect to be able to go to Europe early in the winter.

Affairs of Canada

London.—The third annual review of the Central Board of Missions has fifty pages devoted to affairs in Canada.

FAIR ATTRACTIONS AT WALKER.

Two Splendid Musical Comedies Attraction During Exhibition Weeks.

Visitors to the Winnipeg Exhibition will have a special treat in the attraction at the Walker Theatre during that time. Manager Walker has completed arrangements whereby he secures the favorite totem pole musical comedy, "The Alaskan," and Pixley and Luders' merry "Burgomaster." For summer entertainment these two established successes could not be surpassed; they are brimful of delightful comedy and include an

RICHARD F. CARROLL and GUS WEINBURG in "The Alaskan." Special Attraction at The Walker Theatre during Fair Week.

abundance of whistling airs. The company is the same that played at the Walker during the winter season, and includes such well known artists as Gus Weinburg, Richard Carroll and Jessie Stoner. A numerous chorus of singing and dancing girls will enliven a stage made beautiful by an elaborate scenic production.

The Walker theatre has been proven an ideal summer playhouse. The cooling and ventilating plant keeps the theatre fresh and comfortable, no matter what the weather out-of-doors. A visit to the fair is not complete without seeing every attraction at the Walker Theatre.

Dr. Cook in Heart of Andes Mountains

New York.—Another traveller has come home from South America with tales of the vanished polar explorer, Mr. Frederick A. Cook. This time it is Dr. Robert N. Kelley, of Philadelphia, and he brings a photograph to prove his tale. Dr. Cook shows in the print wearing a long rain coat, a golf cap and without the moustache he had when he toured the country giving lectures.

Dr. Kelley, who arrived recently from Europe, did not succeed in interviewing Dr. Cook.

"The doctor keeps very much to himself," he explained, "and avoids Americans whenever possible. He is living in Cumbre, 12,800 feet up in the Chilean Andes. I believe he will stay there until he can come back with some sort of proofs."

Japanese Far Ahead of People of India

New York.—His Royal Highness the Gaekwar of Baroda and his high born consort, the Maharani, their only daughter, the Princess, Indra Raji Gaekwar, their son the Prince Jaising Gaekwar, and Captain C. N. Nubalker, aide-de-camp of the British army, have arrived in New York from the west with a retinue of servants. This is the second visit to this country in four years.

Japan, the Gaekwar says, is far ahead of India in the matter of diffusing education among the masses. He explains that is due to the fact that there are so many various elements represented among the people of India, while Japan has far greater homogeneity among its people.

Average Wheat Crop Expected

Montreal, Que.—That the western wheat crop gives every promise of being well up to the average of the last five years is the cheering news which C. M. Hays, president of the Grand Trunk system, brought back to Montreal with him, after a trip through to the Pacific coast. "Judging from my own observations," he said, "I think reports of the dry spell have been exaggerated. As a friend of mine here in the city says, it is necessary to find out which side of the market the crop killer is on, before you know how much to believe of what he tells you."

Want Roosevelt to Open Big Fair

Halifax.—The commission which is in charge of the Dominion exhibition to be held in St. John in the middle of September is sending an invitation to ex-President Roosevelt to be present and open the exhibition. This is the official year, and is subsidized by the Dominion and British government and by the city of St. John.

Capt. Bernier Is Away

Quebec.—Captain J. E. Bernier, with a crew of thirty-seven men, has sailed on the government steamer Arctic for unknown regions in the great northern part of the Dominion. It is expected that the expedition will be away for two years.

LOSING MEN AND CASH

U. S. TRYING TO PREVENT RUSH TO CANADA

Washington Using Every Effort to Break the Stampede of Americans to Western Canada—Fertile Lands of Prairie Provinces is Proving to be an Irresistible Magnet for the United States Farmers.

Omaha, Neb.—There is going to be no more emigration from the central states into western Canada, if the "powers" can prevent it, and plans recently formed by the United States government and co-operated in by the governors of those states which have lost so heavily of their very best citizens through emigration to Canada are looked to for assistance in preventing this tremendous drain upon the farm population of the United States. These plans call for the assistance of the American newspapers, and many of the most influential periodicals are lending aid to the movement.

The national government has at last taken cognizance of the tremendous emigration of its subjects to Canada, and recently a fund of half a million dollars was set aside with which to combat the "rush to Canada." The American government has decided to spend that amount of money in advertising government lands in the western states and in showing prospective emigrants that they can purchase land in this country just as cheaply, and in many cases at even lower figures, than they can buy Canadian lands.

But in making this statement, the United States government is obliged to steer clear of furnishing a descriptive comparison of the Canadian and American lands. In western United States there are many millions of acres of land that can be purchased at \$1.25 per acre and that are worth about one cent per quarter section, provided no taxes are assessed against it. There are, of course, millions of acres of much better land than this that are subject to homestead entry, but when the government advertises: "Why go to Canada? We have 367,000,000 acres of free lands in this country," all the great body of absolutely worthless lands is included.

Of course this land cannot be compared with the western Canadian lands nor in fact, can any of the American land which may be homesteaded and purchased at \$1.25 per acre, but practically no farming lands are now open to homestead.

With the half million dollars which it will spend in advertising its own lands, the Washington government will do its best to hold a portion of those western farmers who are leaving the States for Canada because of their ability in the latter country to secure large bodies of land very cheaply.

Many American newspapers are clamoring for this government to spend \$1,000,000 annually in an effort to stop this emigration and point to the fact that 40,000 of the very best class of our citizens crossed into Canada last March. The papers call attention, also, to the fact that these 40,000 emigrants carried \$50,000,000 in cash and property along with them.

"Losing men and money in such great chunks, it's no wonder the United States is preparing a great campaign to stop the drain," says W. V. Bennett, Canadian government land representative at Omaha.

To Cross Atlantic in Airship

New York.—An attempt to cross the Atlantic ocean in an airship will be made this summer, it is reported, by Walter Wellman and Melvin Vaniman. The airship to be used on the journey is the motor balloon America, built to reach the north pole.

Previous to the proposed trip the America will be housed at Atlantic City, where it will make trial trips. A hall for housing an airship is already being built at Atlantic City by the Aero club of that place. It will be 250 feet long, 80 feet wide and 80 feet high. The America will carry a crew of six men, including a wireless operator.

Brazeau C. N. R. Line

Edmonton, Alta.—Phalen & Shirley, contractors on the Grand Trunk Pacific main line, will build the branch line that is to tap the Brazeau coal fields south of the main line. The branch will run south from Edson and will tap the coal areas controlled by the Yellowhead Coal company and the Pacific Pass Coal company. The line is to be completed by the fall, and the coal companies expect to deliver coal over it this coming winter.

Six Years in Arctic

Copenhagen.—Knud Rasmussen, the Danish explorer, will sail from here shortly for Greenland on an exploration tour which will last six years. He said that Peter Freuchen, the Greenland expert, had promised to join the expedition and with his (Rasmussen's) cross-examination of Dr. Cook's Eskimos. The expedition will go first to Melville bay, which will be charted.

Search Canada for Origin of Red Man

Minneapolis, Minn.—The search for the origin of the American Indian, conducted by Dr. Charles A. Eastman, full blood Indian professor of Amherst college, is centered in Minneapolis. Dr. Eastman is here. He has completed a part of his search in Saskatchewan and western Canada and will go to Walker, where he hopes to find the redman who has not felt the touch of civilization.

St. Mary's Hospital Benefit Fund

From Trochu Times

We publish below the first list of contributions to the St Mary's hospital fund. The donations are the outcome of an appeal which was made a short time ago to raise a small fund for the purpose of filling in some water holes in the vicinity of the hospital. The appeal has been royally responded to by the private residents and business institutions of the village and district and although the list is not yet complete the fund is already far greater than hoped for.

Rev Father P Bazin	\$10.00
Merchants Bank	10.00
C I Perrson	10.00
F W Bernard, J. P.	10.00
Dr J. D. Milne	5.00
A Trochu	5.00
T Theodoli	5.00
H de R-Werth	5.00
E Papillard	5.00
Hotel Trochu	5.00
L C Eckenfelder	3.00
B de Chaunac	3.00
John de Beaudrap	2.00
C C Masterson	2.00

Total to date \$79.00

Other donations not specially contributed to the benefit fund are as follows:—

Geo H Cloakey	\$50.00
E R D Porter	5.00

Total \$55.00

The Mother Superior and Sisters of the hospital desire to express their very kind appreciation and thanks for the splendid support and assistance which have been accorded to them.

TROCHU.

L C Eckenfelder and A J Scott made a trip into Olds last Sunday. Pap Tunell is breaking up a large area of land this summer with his new "Able" steam plow

Born—to Mr and Mrs James Kerr of Collingwood on Friday July 8th, a daughter

M S Hunt will open his Grocery Bakery and Confectionery establishment on July 15th.

The Trochu district experienced the best rain fall of the season last week and the crop situation is far more promising.

P Burnes & Co will winter a large number of cattle in the Trochu district again this year. R Campbell is now buying hay for the company.

Granting license to Royal Hotel Trochu will come before the consideration of the Board of Commissioners at Red Deer this month.

Geo H Cloakey wishes to inform the readers of the TIMES that under no consideration will he drive anyone to Olds in his automobile to hear Sir Wilford Laurier at Red Deer on Aug 12th

Hotel arrivals—D J Elliot, Delia; B Long, Delia; J Vansickle, Olds; E McDonald, Delia; Chas Carter, Olds; Mrs N Wright, Olds; Harry Boyd, Montreal; F R Jackson, Fox Coulee; Paul Jardine, Calgary.

Grading was started last week on the Trochu Valley bridge and, as stated in our last issue, construction work will be started on the bridge itself next month. Owing to the favorable weather, the Grand Trunk Pacific railway will in all probability complete the construction of their Camrose-Calgary line sooner than anticipated

An excellent dance was held in the Ferraboschi Hall on Friday evening July 8th. The attendance was not as large as usual but an exceptionally pleasant evening was passed. The music, which was rendered by the Trochu Orchestra, was possibly the best which has ever been heard in Trochu. It was greatly appreciated, and the members of the orchestra are deserving of the highest praise for the excellent manner in which they have organized themselves. The hope is expressed that they will continue to be an important factor in the village and district.

The Trochu Valley Creamery has greatly increased its output of butter again this year and will easily maintain the position this season of being the third creamery in Alberta. This large output of butter points to the great success of dairying in this district and speaks for the richness of our pastures.

Police Court News

From Trochu Times

Fene Drat, a young lad who arrived in the Trochu district some months ago was tried before F W Bernard, J. P., at Trochu and sentenced to three months imprisonment for stealing a watch and other sundry articles. It is believed that the prisoner is mentally unsound and he will in consequence be placed in a special ward. His actions will be carefully watched and medical examinations will no doubt be made. If any traces of insanity are apparent he will be sent back to his parents.

Elias Pulsipher, an employee of the contracting firm of LaRosse, Bell & Parr had a slight difference of opinion with his employers regarding the amount of money due to him for services rendered. Pulsipher maintained that he had not been remunerated for the full amount of his labor and not finding any desire on the part of LaRosse, Bell & Parr to mutually agree on the point carried the case into court. The court decided that Pulsipher had innocently overrated the value of his services. Pulsipher, being a man of more or less peaceful views capitulated to the ruling of the court and agreed to accept the original amount offered by his employers.

The Doctor's Answers

By Dr. Lewis Baker.

The questions answered below are general in character; the symptoms or diseases are given and the answers will apply to any case of similar nature. Those wishing further advice free, may address Dr. Lewis Baker, College Bldg., College-Hillwood Sts., Dayton, Ohio, enclosing self-addressed envelope for reply. If unable to obtain any of the drugs mentioned of your regular druggist, go to some prominent large retail drug store which is sure to be well stocked.

George B.—You state your symptoms are constant thirst, feverishness, pains in the back and groin, swelling of the ankles, puffs under the eyes, inflamed eyelids, painful, smarting, and frequent urination, sleeplessness, catarrh, etc., and you are correct in surmising that your kidneys and bladder need a good tonic treatment. Have any well-stocked druggist mix the following: 1 oz. fl. ext. buchu., 1 oz. comp. fl. balmwort and 4 ozs. comp. syrup sarsaparilla. Take a teaspoonful before or after meals and one when retiring. Drink plenty of water between meals. Eat slowly. Abstain from alcohol. Continue treatment 6 to 8 weeks.

George W.—You have dyspepsia, if your symptoms are bloating and belching, pains in the stomach, foul breath, headache, weakness and dizziness. You should avoid pastries and sweets for some time and take a teaspoonful after each meal, of the following:

3 ozs. essence of pepsin, 1 oz. comp. essence cardiol and 2 ozs. syrup of ginger. Mix. The foregoing will usually correct and cure any case of indigestion or dyspepsia.

Frank—Your extreme thinness is unnatural. You should weigh 25 pounds more. Your trouble is due to inability of the digestive tract, or alimentary canal, to absorb the proper elements that go to make flesh and fat from the food taken into your system. I know many who have gained a pound a day for 30 days through the use of the following prescription. Your sister will find it very strengthening, while increasing her weight. You can both use it to great advantage.

3 ozs. essence of pepsin, 3 ozs. syrup hypophosphites comp., 1 oz. tincture cadomene, (not cardamon), and 1 oz. comp. essence cardiol. Mix. Take a teaspoonful after meals and one

before retiring. Continue for 30 to 90 days.

Mrs. S.—Your complaint is a very common one and is commonly termed "whites." In reality it is leucorrhoea, and if permitted to become chronic is very weakening and causes many complicated female diseases.

Write me again, giving full name and address and all symptoms, and I will mail you prescriptions and outline a thorough curative treatment for all female diseases.

Business Man.—Your condition is not beyond hope. Timidity, insomnia, nervousness and inability to act rationally and naturally as a healthy, vigorous person would, can soon be overcome, and abounding new health can be felt surging in rich, red blood through the entire system if the following treatment is faithfully adhered to. Use the following powerful, though harmless nerve tonic in teaspoonful doses 3 to 4 times a day: Comp. fluid balmwort 1 oz., comp. essence cardiol 1 oz., tincture cadomene comp. 1 oz. (not cardamon), and comp. syrup sarsaparilla 3 ozs. Mix all together.

City Lass.—The following formula is said to be used by a noted beauty specialist for increasing the flesh of the bust, arms and neck. If properly used it should prove very satisfactory and round out your figure as desired: Comp. tincture cadomene 1 oz. (not cardamon), glycerine 2 ozs., rosewater 3 ozs., and 1 teaspoonful of borax. Mix. Shake well and apply to the neck, arms and bust, rubbing and massaging until completely absorbed. Then wash the parts treated with hot water and soap and dry thoroughly. Then massage with olive oil or sheep tallow. Apply morning and night for several weeks or months as the case may require.

Fred.—Ask your druggist to prepare you a solution of boric acid with which to treat your inflamed and watering eyes.

Ready With the Goods

Teacher—What is the meaning of excavate?
Pupil—To holler out.
"Give a sentence containing the word."
"A boy excavates when his papa licks him."

Digby, N.S.

MINARD'S LINIMENT CO., Limited: Gentlemen,—Last August my horse was badly cut in eleven places by a barbed wire fence. Three of the cuts (small ones) healed soon, but the others became foul and rotten, and though I tried many kinds of medicines they had no beneficial result. At last a doctor advised me to use MINARD'S LINIMENT and in four weeks time every sore was healed and the hair has grown over each one in fine condition. The Liniment is certainly wonderful in its working.

JOHN R. HOLDEN.

Witness, Perry Walker.

Her Father—"What was that piece you thumped out, Sis?"
Daughter (at the piano)—"A Song Without Words, dad."
Her Father—"I don't blame any guy for not writing words to it."

Peevish, pale, restless, and sickly children owe their condition to worms. Mother Graves' Worm Exterminator will relieve them and restore health.

No Wake for Him

"I don't know why the church bells ring so loud for old Post's funeral."
"You know he was hard of hearing."

Bub Gives It Away

Big Sister—Come, Stanley, do as the doctor wishes. Take your powder as I do.

Little Brother—Then I'll daub it on my face.

Husband—Does that novel end happily?

Wife—It just says that they were married.

Awful Quandry

Flubb—What's the matter, old man? You seem wabbly.
Dubb—Matter 'nough. Me wife put me handkerchief in the wash, and I had a knot tied in it to remind me of something.

In Maine a man attached to a life-saving station at Small Point amassed a sufficient number of swords of the swordfish to build a picket fence forty feet in length.

Old Chap—"Yes, sir, I'm ninety-five next birthday, and I don't recollect ever telling a lie."

Young Man—"Well, you can't expect your memory to be very reliable at your age."

Don't experiment with unsatisfactory substitutes. Wilson's Fly Pads are the best fly killers made and will kill many times more flies than any other article.

Not Many on the List

Teacher—What is a city of the second class?
Up to Date Boy—One that hasn't a graft investigation going on.

Minard's Liniment Cures Garget in Cows.

It was at a White House reception that a Philadelphia picked up a choice gem which he never tires of telling. A charming girl of eighteen, the daughter of a western publisher and quite a society queen in her own city, had been brought to Washington by her father, and at one of the White House receptions was presented to President Roosevelt. As her small hand disappeared within the grasp of the president the maiden looked up at him and smiling sweetly said—"I've often heard father speak of you."

Home Troubles

Jabs—What's the matter, old man? You look as if you hadn't had any sleep. New baby?
"No; got a daughter old enough to have a beau."

Costs to Find Out

"Here's a magazine article that says only imitation muckraking is harmful."

"But a fellow has to pay 15 cents the copy to find out the difference between the real and the spurious."

"Ah, little boy," said the village suffragette, with a sigh, "I am shocked to see so many youngsters around her with soiled faces. Don't you know we suffragettes have promised to kiss every little boy who has a clean face?"
"That's why we are keeping them dirty, mum!" shouted the tough lad as he bolted down the alley.

The destruction of the house fly is a public duty. Almost all boards of health are now carrying on a crusade against it. A bulletin recently issued by the Dominion Government states that no house fly is free from disease germs. Use Wilson's Fly Pads freely and persistently, and do your share towards exterminating this menace to the public health.

Little Boy—"I want a dose of castor oil."

Druggist—"Do you want the kind you can't taste?"

Little Boy (anxious to get even)—"No, sir; it's for mother."—San Jose Citizen.

A Pill That Lengthens Life.—To the man who is a victim of indigestion the transaction of business becomes an added misery. He cannot concentrate his mind upon his tasks and loss and vexation attend him. To such a man Parmelee's Vegetable Pills offer relief. A course of treatment, according to directions, will convince him of their great excellence. They are confidently recommended because they will do all that is claimed for them.

The poetical young man with soulful eyes was walking with his matter-of-fact brother by the riverside down Kingston way. "How the stream tosses in its slumber!" he exclaimed. "Yes," answered his brother, "and you would, too, if your bed were full of stones."

"And now that you are through college what are you going to do?" "I shall study medicine." "Rather crowded profession already, isn't it?" "Can't help that. I shall study medicine, and those who are already in the profession will have to take their chances, that's all."

NERVOUS SYSTEMS

Always Follows a Run Down Condition of the Blood.

It is an old story now that nervous people tell of how the blood becomes poor and thin, and then the nervous symptoms followed.

How many really know that the thin blood was responsible for the nervous disorders? The nerves get all their nourishment from the blood, and as thin blood is deficient in nerve-building material, the nerves become starved and pain and nervous breakdown is the result. Dr. Williams' Pink Pills are a tonic for the blood that supply it with the necessary elements to nourish and tone up the nerves and, the cause being removed, nature does the rest and health is fully restored.

Mrs. Henry Patterson, Dauphin, Man., tells how she was cured of nervousness and general debility through the use of Dr. Williams' Pink Pills. She says: "A few years ago I was all run down, and my nervous system apparently all broken up. I was weak, tired and nervous all the time. When I got up in the morning I seemed to be more tired than when I went to bed. I could not walk up an ordinary flight of stairs without sitting down panting for breath, and my nerves trembled like a leaf. I got so that it was almost impossible to do any housework, and so nervous that I wanted to cry about everything I did. I took several different medicines without the least benefit; then I read of Dr. Williams' Pink Pills and decided to try them. After taking two boxes I felt a little better and I got a further supply which I continued taking for about a month when I was as well as ever; could do all my housework without difficulty, and could walk for a long distance without being all tired out. In view of the wonders Dr. Williams' Pink Pills have done for me I sincerely recommend them to all weak, nervous, run-down people."

Sold by all medicine dealers or by mail at 50 cents a box, or six boxes for \$2.50, from the Dr. Williams' Medicine Co., Brockville, Ont.

He was a tough prisoner of forbidding aspect. "Prisoner at the bar," said the Recorder, "do you challenge any of the jury men?" "Challenge 'em!" grunted the ruffian, "why, I'd fight the whole lot of them with one hand tied behind me."

The Poor Man's Friend.—Put up in small bottles that are easily portable and sold for a very small sum, Dr. Thomas' Electric Oil possesses more power in concentrated form than one hundred times the quantity of many unguents. Its cheapness and the varied uses to which it can be put make it the poor man's friend. No dealer's stock is complete without it.

"Were your theatrical entertainments for charity a success?" asked one girl. "Yes, indeed! We got £5 8s." "Really! You must have had a large audience." "No, we took in 8s. at the ticket office, and father gave us 5s. never to do it again."

HOG RAISING IN ALBERTA

Mr. Sorenson Tells How He Made Hog Raising a Successful Venture

By N. K. Sorenson, Markerville, Alta.

I use in my hog business eight acres of land bordering upon the Medicine River. The slope towards the river is covered with brush, and the rest of the land is partly in native grass and partly seeded down with mixed grain for pasturage, which is a great help to keep pigs in good growing condition.

The principal building provides pens for some 60 hogs, and in one end of it I have a feed room with tanks for storing water and buttermilk. The feed room is surrounded on three sides by feeding yards fenced in and they are arranged so that hogs of nearly the same size are fed together. Outside of the regular feed yards I have other buildings used principally for breed sows whenever I find it advisable to separate them from the rest; while these as well as straw stacks are available for farrowing quarters, the sows seem to prefer farrowing in the bushes in summer.

My bunch of hogs is of the Yorkshire breed, bred from registered stock and consisted in February, 1909, of 1 boar, 13 sows and 27 young hogs for fattening. During the year the brood sows had 17 litters, totalling 138 pigs of splendid vitality farrowed as follows: 8 litters in March, 5 in May and 4 in August. I bought 65 half grown hogs for fattening between September 11th and November 15th, 1909. In February last I had 35 pregnant sows and 2 boars, having sold altogether 207 head during the year. During pregnancy the sows are fed on oats; otherwise barley is the staple grain ration. In my experience the young pigs show less vitality when their dams have been fed largely on barley.

Separate feeding yards are provided for the small pigs where they can always find barley, whole or ground, and fresh buttermilk. It is very important to have the small pigs feeding well when they are weaned, and they should be fed liberally so as to keep a clean skin and a good appearance, without being fat.

I start fattening the pigs when they are 3 to 4 months old, and give them all the barley chop they will eat and any buttermilk which is not needed for the small pigs. I feed regularly three times every day but only what they will eat up clean.

The best size of pen is 12 feet by 10 feet with a 12-foot trough and it gives room for ten hogs; larger pens and several hogs in each gives too much disturbance. The pens are cleaned out daily and some bedding is placed in one corner of each. Hogs do not thrive well unless they are kept absolutely clean and the skin free from scurf.

In order to secure the best results we must keep the hogs comfortable and treat them kindly. A hog so handled should gain on an average 1½ lbs. per day from the day it is farrowed until it is 5 months old. Beyond that age every pound of gain in weight costs more than under that age. My hogs have been in splendid health and I have not lost a single pig from disease. This I attribute to the open air, exercise and excellent shelter afforded by the brush land surrounding my hog yard. It also provides shade in the summer for the young pigs.

Of feed stuffs, I used the equivalent of 2,800 bushels of barley, or 134,400 lbs., according to the formula; 6 lbs. buttermilk, 1 lb. oats, 1 lb. barley. From this I have produced 29,480 lbs. of hogs, using 4.56 lbs. of barley per pound gained in the weight and thus realizing 71.3 cents per bushel after the principal items of expenditure, such as interest and depreciation, are deducted.

As to the value of the labor involved, this becomes a matter of individual calculation on farms where hogs are kept in conjunction with other stock, but it seems to me that in my situation it is easier to feed the barley to the pigs than haul it 14 miles to the railroad station.

The year's business is summed up in the following statement, viz:—

Bought 106 hogs weighing	9,450 lbs.	\$ 554.00
Bought barley, oats and buttermilk equivalent to 134,400 lbs. barley	832.00
Sundry expenses rent, interest, etc.)	165.00

Total expenditure\$1,551.00

Sold date	Hogs	lbs.	Per lb.	Total
May '09	27	4,515	6c.	\$ 270.90
July '09	9	1,600	6.5	104.00
Aug. '09	14	3,120	6.5	201.50
Sept. '09	39	5,940	7c.	410.00
Sept. '09	11	1,800	7.5	135.00
Oct. '09	9	1,440	7.5	108.00
Oct. '09	9	1,440	7.5	108.00
Oct. '09	10	1,360	7c.	97.30
Oct. '09	14	2,730	6.5	177.45
Dec. '09	19	3,240	7.5	243.00
Jan. '10	19	3,440	8c.	275.20
Sundry Sales	27	800	10.1	81.00
On hand Feb. '10	37	7,400	8c.	665.00
	244	38,930	\$2,881.97

This shows a surplus of \$1,330.97.

—Nor'west Farmer, April 20, 1910.

Mrs. Ella Wheeler Wilcox hit off in neat epigram a notorious difference in the world's treatment of the sexes. "To say," she observed, "that everybody is talking about a young man is a eulogy; but to say that everybody is talking about a young woman is an elegy."

PILES.

You will find relief in Zam-Buk! It eases the burning, stinging pain, stops bleeding and brings ease. Perseverance, with Zam-Buk, means cure. Why not prove this? All Druggists and Stores.—50c box.

Zam-Buk
FOR ALL SUMMER SORES.

To Whom Do You Refer?

"They say that King George would rather be on the quarterdeck of a battleship than on the throne."

"Well, there are some people in this country who'd rather be in the grand stand of a ball ground than in the White House."

Minard's Liniment Cures Colds, Etc.

The Walrus—"Gee! But it's lonesome around here. What caused you to become a hermit?"

Esquimo Dog (sadly)—"I was with Cook."—Puck.

Corns and warts disappear when treated with Holloway's Corn Cure without leaving a scar.

A century ago farmers reaped their grain with sickles, one acre being a fair day's work.

FOR THE SKIN AND SCALP

Because of its delicate, emollient, sanative, antiseptic properties derived from Cuticura Ointment, united with the purest of cleansing ingredients and most refreshing of flower odours, Cuticura Soap is unrivalled for preserving, purifying and beautifying the skin, scalp, hair and hands. Assisted by Cuticura Ointment, it dispels itching, irritation and inflammation and tends to prevent clogging of the pores, the cause of many disfiguring facial eruptions. All who delight in a clear skin, soft white hands, a clean, wholesome scalp and live, glossy hair, will find that Cuticura Soap and Cuticura Ointment realize every expectation.

The Town Grumbler—"I dun'no what things is comin' to. Poor old Henry gone; Aunt Jane's busted her leg; the old woman's ill abed; an' now, hang me, if I haven't lost my knife."

If every housekeeper would use Wilson's Fly Pads freely during the summer months, the house fly peril would soon be greatly diminished.

Mrs. A.—"There's nothing like matrimony to make a man appreciate the value of money."

Mrs. B.—"That's so. A sovereign a man gives to his wife does look bigger to him than any other sovereign."

Ravages of Consumption

ALL HER RELATIVES HAD DIED OF CONSUMPTION

In the year 1890, 18 years ago, Mrs. G. S. Cramer, of Belle Isle, N.S., was in a sad condition. All her relatives had died of consumption, and there was every indication that she was going the same way.

Authoress of her husband suggested to try Psychine. The doctor who attended said Psychine was worthless; but it effected a wonderful cure. Eighteen years after in a letter bearing date August 14, 1908, Mrs. Cramer says, "I am better than I have been for years. My lungs have not troubled me since I took your treatment. My physician told me I could not take a better tonic than PSYCHINE, and I recommend it to all who are suffering from Lung Trouble and General Debility."

For sale by all Druggists 50c. & \$1 per bottle.

FAMOUS PEOPLE

BY FANNIE M. LOTHROP

CYNTHIA WESTOVER ALDEN

The Romantic Career of an American Woman

The lives of some people are so large, so brimful of action and accomplishment, so pulsing with purpose, so kaleidoscopic and diverse in expression, that a mere outline of their life-story seems more like the record of the doings of a syndicate than the biography of an individual. Such a one is Mrs. Cynthia Westover Alden, founder and President-General of the International Sunshine Society, and whose generous thoughtfulness in "passing on" to others her surplus Christmas gifts was the inspiration of a world-society with over 3,000 branches and more than 200,000 members—all consecrated to spreading sweetness and the sunshine of kindness.

When Mrs. Alden was a motherless child of four she was taken by her father, an expert geologist, from her native home in Iowa to Colorado. This was when the journey across the Rockies was one of fearful peril, for to the hardships of travel was added the constant terror of the Indians.

Her education was under the loving tutorship of her father, who, after teaching her the twenty-six keys to universal knowledge, led her into the mysteries of history and geology. When but a child she rode a broncho with the nonchalance of an Indian; with a revolver at her belt or a rifle slung across her arm she was a sure shot, and was expert with the lasso and bow and arrow. In this large unconventional life she grew up a strong, healthy girl, fearless, self-reliant, but with fine impulses and broad sympathy.

Her hunger to serve humanity was even then manifest. She crawled through the tall grass to bathe and dress the wounds of a stage driver who had been scalped by the Indians; saved the life of a miner who was to be lynched, by standing between the victim and the enraged mob till its fury was calmed; was lowered over a precipice to bring up the dead body of a child; threw herself on a miner's lamp that had fallen near gunpowder and smothered the flames; rescued some snow-bound miners; made a daring rescue ride through the Indian invaders and brought relief from the fort, and had many other similar experiences.

The first child in the schools of Colorado, she graduated from the State University. She has made a success in journalism; has written three books, the latest of which is "Money Earning for Women"; done splendid work in music; mastered Spanish, German, Italian and French, and is one of the most popular club women in the country. Mrs. Alden is the wife of John Alden, a lineal descendant of John Alden of "Mayflower" fame.

Entered according to Act of Congress in the year 1909, by Fannie M. Lothrop, at the Department of Agriculture.

RELIGIOUS SERVICES

Rev F E Davis will conduct divine services on Sunday as follows; Nesbit 11.00; Betchton 3.00; Bowden 7.30. Hearty welcome to all.

The Methodist Ladies Aid were kept busy last Saturday serving ice cream. Mesdames Yates, Walton and Morfitt and the Misses Dheil, Bryenton and Whitlock deserve praise for the success which attended their arduous labours. The weather was hot, business brisk ice cream delicious and the treasurer's purse heavy. Hearty thanks to Mrs McDermott for the use of room and to all who extended their kind patronage.

Revs Chalmers and Davies attended a convention of the Moral and Social Reform League held at Red Deer last Friday. Some thirty-six delegates were present representing fifteen towns. Mr Smith was voted to the chair and Rev Fortune acted secretary. After an animated discussion it was decided to open a campaign early in January with a view to securing Local Option in Licensing District No 3 from Carstairs to Wetaskiwin, including the surrounding country district. Meanwhile all temperance workers are urged to prepare for this local option campaign so that victory may be assured.

For Western Canada's Great Industrial Fair at Winnipeg, July 13, 1910, the Canadian Pacific R'y Co. will have in effect special rates. For full particulars as to rates, etc. apply to nearest Canadian Pacific ticket agent. 52
